

Message of the Honorary President of 2015 DMWC International Charity Bazaar

**H.E. Ambassador Ernesto Massimo Bellelli,
the Ambassador of the Republic of Italy
in the Republic of Macedonia**

I got to enjoy last year the activities of Dobrodojde Macedonia Welcome Center and in particular the International Charity Bazaar, a charity event attended by the people of Skopje with the proceeds traditionally going to institutions operating in the social field and in general for the benefit of young people in need in the country. Knowing the value of it, I therefore welcomed with pleasure the honorary presidency of the Bazaar in 2015 when I was proposed.

I believe that the International Bazaar has in fact its own special value as it

not only allows the Embassies and the international community to live more the reality of Macedonia introducing or rediscovering at the same time domestic products that are characteristic of each of our countries and also art, gastronomic or culinary products in the various national stands, but above all it allows to concretely demonstrate the importance of enhanced international cooperation and integration among the countries. It also allows the generous people of the city of Skopje to get in touch with realities more or less culturally distant.

I see this event as a magic moment when the barriers and the divisions between the countries and the people fall, bringing together everyone in favor of a common goal, which is a generous help to those most in need and all that in a cheerful frame of performances of hundreds of young people from different schools in the city.

I am convinced that the 2015 edition of the international bazaar, thanks to the contribution of everybody, will be an edition even more beautiful and full of success. To this end it is important of course to have an active participation of all because in the end, the protagonists are those who animate the event from the smallest to the biggest, each individual in its domain, from the youngest who will be engaged in the shows to the older who are going to be involved in the sale of lottery tickets, in the organization and the management of the stands or even in a simple visit to the Bazaar.
